PROFESSIONAL SUMMARY

Detail-oriented and driven IT professional currently pursuing an Advanced Diploma in Application Development. I have hands-on experience building web, mobile, and database-driven systems using C#, Java, Kotlin, SQL, and cloud technologies. Through academic and practical projects, I have developed secure, scalable applications while applying software engineering principles, SDLC methodologies, and Agile practices. I am particularly interested in secure application development, cloud-based solutions, and enterprise systems. I enjoy solving real-world problems through clean code, structured documentation, and strong collaboration within a team. With exposure to software engineering, application security, cloud development, and work-integrated learning, I am continuously strengthening both my technical expertise and professional readiness. I am eager to contribute to a forward-thinking team where I can grow, add value, and deliver high-quality solutions.

EDUCATION

Advanced Diploma in Application Development (Currently Studying)

Rosebank College, Pretoria | 2026

Key Modules: Introduction to Research for ICT, Application Development Security, Cloud Development A, Enterprise Application Development, Cloud Development B, Software Engineering, Advanced Application Development, Work Integrated Learning 3

Diploma in IT in Software Development

Rosebank College, Pretoria | 2023 – 2025

Academic Achievement: Passed

Matric Certificate

Florapark Comprehensive High School, Polokwane | 2016 – 2020

Passed

RELEVANT SKILLS

Programming Languages: Java, C#, Kotlin, JavaScript, SQL

Web & App Development: ASP.NET, HTML5, CSS3, WPF, Android Studio

Databases: Oracle SQL, PL/SQL, MySQL, Azure SQL

Tools & Platforms: Microsoft Azure DevOps, GitHub, GitHub Actions, CI/CD Pipelines

Software Practices: Object-Oriented Programming, SDLC, Unit Testing, API Integration

Project Management: Agile, PMBOK, Risk Management, Budgeting, Documentation

Professional Skills: Problem-Solving, Team Collaboration, Communication, Time Management

JOB EXPERIENCE

Volunteer Tutor | Rosebank College, Pretoria | Sept 2025 – Nov 2025

- Supported first-year students with assignments, portfolios, and exam preparation.
- Simplified complex IT and software development concepts using practical examples.
- Provided constructive feedback and encouraged independent problem-solving.

PROJECTS WORKED ON DURING MY STUDIES

Gift of the Givers Disaster Relief Web Application

Technologies: C#, ASP.NET, Azure DevOps, Azure SQL, CI/CD

- Developed a web application to manage incidents, volunteers, and donations.
- Designed relational database structures and ER diagrams.
- Implemented version control, automated pipelines, and testing strategies.

Contract Monthly Claim System (CMCS)

Technologies: C# .NET, Web Development, Database Integration

- Built a system for lecturer claim submissions and approvals.
- Implemented automated calculations, document uploads, and workflows.
- Produced full project documentation and testing evidence.

Kayak Store Database System

Technologies: Oracle SQL, PL/SQL, Database Design

- Designed a normalized relational database using ERDs.
- Developed complex SQL queries, reports, and stored procedures.
- Applied database security and user privilege management.

Charity 4 Africa Database System

Technologies: Oracle SQL, PL/SQL

- Created a complete database for managing donors, staff, and transactions.
- Developed business reports, views, and exception handling logic.
- Implemented data integrity and automation features.

View-All Content Aggregation Project

Technologies: Agile, PMBOK, MS Project

- Served as Project Manager for a simulated content aggregation platform.
- Managed project schedules, risks, and a R500,000 simulated budget.
- Applied SDLC phases and project documentation standards.

Android Mobile Application

Technologies: Kotlin, Android Studio, REST APIs

- Developed an Android app with authentication and API integration.
- Implemented offline functionality and automated testing workflows.
- Prepared the app for deployment readiness.

Recipe Management Application

Technologies: C#, OOP, WPF, Unit Testing

- Built a multi-phase application from console to WPF desktop.
- Applied OOP principles, collections, and unit testing.
- Designed a user-friendly graphical interface.

ACHIEVEMENTS

Completed Woman Techsters Bootcamp Training in Software Development (2025).

ADDITIONAL INFORMATION

Willing to learn and grow in professional environments. Strong work ethic and reliability. Available immediately.
